No. 1, EAST INDIA AVENUE, London,

THIS Company has been formed for the El Dorado, purpose of acquiring from the CHINA Pechili, COAST STEAM NAVIGATION COMPANY, of Shanghai, the YANGTSZE STEAMER COMPANY, Kungton, of Shanghai, and from Mesers JARDINE, MATHESON & Co. the Steamers specified in the Schodule attached hereto, together with the business of running Steamers on the Coast and Rivers of China, and between

China, the Straits Settlements, and Cal-The Directors believe such a consolidation of the various interests represented, and the making provision, by adding Steamers to the present fleet for meeting the growing requirements of a rapidly developing traffic in the Eastern seas, will render the business of the Company aremunerative investment.

THE CHINA COAST STEAM NAVIGATION COMPANY was established in 1872 to unite shipping interests connected with North China, and has been successful in developing an important carrying trade between Foochow and Shanghai, and between Swatow and Shanghai, Chefoo, Tientain, and Newchang, on which lines aix Steamers

are employed,
The YANGISEE STEAMER COMPANY have three Steamers plying on the river between ing and passenger traffic. The Steamers: are new, the " Taiwo" having been launchmr9 ed as recently as last May, and they have been designed to meet the special requirements of Chinese passengers and the native

carrying trade. The "Serwo" is a new Steamer of 1,406 6th March next, both days inclusive. A Parkes will be thankfully received tone, built at Aberdeen, and despatched to at the Sailor's Home, West Point. China in February last, where she will shortly be joined by the "Fooksang," of

1,507 tons, the building of which has just been completed at Aberdeen; and by the "Posang," of about the same tonnage, now approaching completion at Glasgow. These for its centre, and in connection with which

The China and Calcutta branch of the Company's Service will take the place of the Steamers (their own or chartered) which Messrs JARDINE, MATHESON & Co. have run for upwards of twenty-six years, and which have carried the mails between China, the Straits Settlements, and India. This line is a valuable one, and is considered of growing importance, owing to FOR SWATOW, AMOY & FOOCHOW. the increasing passenger traffic and trade of China with the Straits Settlements and India, It is proposed to build two large and powerful Steamers, specially adapted to this branch of the trade, to take the place of the Chartered Vessels at present employed in the service, and the Directors expect that to accomplish this, and to make the desirable additions to the Coast and River Services, an outlay of £185,000 will

be amply sufficient. The carnings of the CHINA COAST STEAM NAVIGATION COMPANY'S fleet during late years, the results obtained by Chartered Steamers on the lines so provided with tonnage, and the working of the Yangtsze River Service, show good realised profits, and it may confidently be anticipated, with the substitution of European Versels for the native Junk that is taking place on the Coast of China, and the general expansion of the Carrying Trade in the Eastern Seas, and on the Rivers of China, that the Company will find atople scope for profitable enterprise. The business, though still capable of great development, has the benefit of being a going concern, and active service is proceeding on all the lines in-dicated, bringing in a revenue out of which the Directors reasonably expect profits to pay Dividends, besides forming a Reserve Fund for Depreciation in the value of

WE are informed by the Agents (Mesars Adamson, Bell & Co.) that the S. S. Giamis Castle, from London, left Singapore yesterday for this port.

IT is stated in the Alta California of Jan. 21 that there is some probability of Colone! the 3rd Mar., instead of as previous. Mosby going to Shanghai to assume the duties of the Consulate-General there. This probability was known here some time ago, when Colonel Mosby wrote home declining to accepe the post.

On Saturday afternoon while a Norwegian seaman Agath Gibson, on board the W. H. Besse, was working aloft, the main top gallant yard fell, and striking him in its board the Packet with Late Fee of 10 fall broke his left leg in several places. The man was removed to the Government Civil Hospital.

> THE Batavia Dagblad states that the steamer Atich, despatched from the North Sumatra Station in search of the missing boats of the foundered steamer Koning der Nederlanden, had arrived unsuccessful at Point de Galle. On her return voyage she is to call for that purpose at the Chagos and Maldive islands.

Some time ago Colonel Mosby, U. S. Consul, sent home a despatch drawing the attention of his Government to the humane conduct of Captain Waring of the Gordon Castle in rescuing the shinwrecked prove of the American ship Humboldt. A despatch has now been received, informing Colonel &c., at the residence of Surgeon Major Mosby that steps are about to be taken towards recognising Captain Waring's

humanity.

THE closing scenes of the Guiteau trial are even more repellent than any which have preceded them. The blasphemous wretch, during Judge Porter's address kept up a continual stream of outrageous utterances and got more and more frenzied as the counsel for the prosecution tore his insanity theory to pieces. During the Judge's summing up, he sat remarkably quiet, but when the jury had given their verdict he again protested, screaming that his blood would be on their heads. The country is greatly pleased with the decision, and calls are made from some parts to "string him up quick." It is thought efforts will be made to have a new trial, but surely this will never be accoded to
